

## 如何备考Task 2

1. 准备4个模板
2. 200个题库题目中文会说
3. 背200个左右句子
4. 写5篇，仔细修改

1. Some people hold that it is the television that makes the relationship of family members not as close as before. To what extent do you agree or disagree?

2. Some people hold that old people should be taken care at home, while others think they should be placed in old people's house. Discuss both sides and give your opinion.

3. Nowadays it is difficult for university graduates to find a job. Analyze the personal and social reasons and offer some solutions.

4. When we seek a future career,  
what factors should we consider?  
Whose suggestions should we  
consider?

5. Increasing the price of petrol is the best way to solve growing traffic and pollution problems.

To what extent do you agree or disagree?

What other measures do you think might be effective?

# 第十一章 图表作文

## 一、概述

字数 150-200

时间 20

1/3

# 分类

(1) data 70%

(2) process 20%

(3) map 10%

## 二、Data

(1)一个图 50%

(2)两个图 40%

(3)多个图 10%

一个图:

第一段 1句

改写题目中的1句文字说明,  
有时可结合图表中的一些内  
容(表头).

主体段落 1-3 段  
三个典型题目,四大句型

结尾段 0-2句  
指出从图表中推断出来的结论.

典型题目一:

既有不同的时间，也有不同的对象 占  
60%

主体段落:先用两段分别描述各个对象在这段时间的变化(使用四大句型一、二)，再用一段对各对象进行比较（使用四大句型三、四）。

You should spend about 20 minutes on this task.

*The table below gives information about changes in modes of travel in England between 1985 and 2000.*

*Write a report for a university lecturer describing the information shown below.*

You should write at least 150 words.

**Average distance in miles travelled per person per year, by mode of travel**

	<b>1985</b>	<b>2000</b>
<b>Walking</b>	255	237
<b>Bicycle</b>	51	41
<b>Car</b>	3,199	4,806
<b>Local bus</b>	429	274
<b>Long distance bus</b>	54	124
<b>Train</b>	289	366
<b>Taxi</b>	13	42
<b>Other</b>	450	585
<b>All modes</b>	<b>4,740</b>	<b>6,475</b>

The table illustrates the changes in modes of travel in England over 15 years(1985 to 2000).

The number of all modes increased slightly from 4740 miles per person per year in 1985 to 6475 in 2000.

There was a sharp rise in the number of long distance bus and taxi over the 15 years. However, the period from 1985 to 2000 witnessed a moderate growth in the number of car, train and other modes.

There was a slight decrease in the number of walking and bicycle between 1985 and 2000. The number of local bus suffered from a dramatic drop from 420 in 1985 to 274 in 2000.

In 1985, car had the highest number in all the modes. Other modes occupied the second place with 450. The number of local bus was much higher than that of train. Taxi had the lowest number. In 2000, Car ranked the first place, while bicycle had the lowest number. Interestingly, the number of long distance bus was approximately 3 times as much as that of bicycle(124 and 41 respectively).
