I decided to cheer up, trust myself and give it a shot again. And I participated in the exam the next year and I won beautifully.

This is **the thing** I learned from math. Who could ever imagine such a simple multiplication theory can explain life so vividly. I just want to say from the bottom of my heart: Math rocks!

A friend you haven' t seen for a
long time

I want to talk about Haitao, who is my
best friend.

Last semester, Haitao went to the UK
to study. We haven' t seen each other
since then. I missed her a lot.

To me, she is a real friend who can
always give me a listening ear, a warm
shoulder and a helping hand whenever I
am in need.

A way of communication

I want to talk about telephone.

It is such a revolutionary breakthrough after letters. A telephone is portable, user-friendly and enables me to contact anyone anywhere anytime I want. It makes our life easier.

Among all the phone calls I have got, what impressed me most was the one I got from ...after ...

Your experience of getting
congratulations from others

The next year, my dream came true.
When I told her the exciting news,
she was like more excited than I
was. She congratulated me for
doing so well.

But I knew without her, I would have
never got successful.

Your experience of getting
money as a gift

The next year, my dream came true.
And I got 5,000 RMB as the award.
I felt quite happy. It was like
all of my efforts and hard work
got paid off in some sort of way.
But more precious thing was the
spirit I learned from it.

A personality you have

I want to talk about perseverance.

I am a persistent person, by which I mean, no matter what I do, I never give up easily. Among all the things that I have done which can show my perseverance, I want to talk about a decision that I made after I failed ..

I believe that my personality determined what kind of person I turned into.

The first day of your college

I want to talk about the first day of my college, which impressed me a lot.

As the first day of orientation week, our tutor asked us to choose a word to describe our personality. When it was my turn, I told them a story. The word I chose was perseverance. Back to two years ago, I failed ..
