Do you love bags?

Absolutely, to me, it is a must-have when I go out. I have a huge collection of bags with different brands, colors and designs. I choose them to go with my different outfits and shoes.

What kinds of bags do you love?

I love totes and shoulder bags most because they all have a large capacity and high utility. Besides, I am crazy about designer bags.

What factors do you normally consider when you purchase bags?

Design, brand , price, color, capacity and utility are normally the main factors I will consider when I choose bags. I totally buy the saying that bags talk. Believe it or not, I think different bags can show people ' s tastes and even personalities.

Do you have different bags under
different occasions?

Totally! Totes for school and shopping,
clutches for parties, weekenders and
backpacks for travelling. They all exist
for a reason.

How do you feel about the fact that some luxury bags are very expensive?

Well, I think they are expensive for a certain reason. Those bag designers don't sketch something out randomly and make them sell like hotcakes overnight. Those designers must have particularly acute sense of smell in fashion to lead the trend.

谢谢
